To: Julia Angel <firsthealer@gmail.com>

Working with Julia has been a complete pleasure. I have been working with her for about a year now. She is a volunteer of the Meadow Park HOA, I am a Fire Sprinkler contractor. The Meadow Park complex hasn't had its Fire Sprinklers tested or maintained since it was built.

Julia played a key role in contacting the Board of Directors, gathering other volunteers to get votes and put pressure on the Board to get their sprinklers tested, and maintained to ensure that their homes are safe.

She has worked with me every step of the way, staying in constant contact with me, the Board, and through her blogging the entire residence of Meadow Park.

Every time there was a stop she played a key role in moving it forward (sometimes she played the only role in getting over the hurdle). Due to her hard work all sprinkler systems have had a full inspection done and we are nearing the completion of getting the contract done to fix any errors that were found upon inspection.

She is a very persistent, kind, and hard worker. She is also very selfless as I can see from the fact that she didn't just settle for her home being up to date, she wanted to see that all homes were inspected and corrected.

She is also very understanding and easy to get along with.

Sincerely,

Nate Hargitt  
VP Exxell Fire Systems
